Summary

Looking forward to gaining experience and becoming a team player to achieve the company goals.

Skills

Easygoing, hard-working and experienced with HTML5 • CSS3 • JavaScript • Sass/css • Npm • React(Basic)

Projects

Festival

Jan 2022 - Jan 2022 •

Technologies: HTML/CSS • JavaScript • Sass/css • Gulp • Npm

This project is about a festival where a band is going to play, we can see the date of the concert, where it is going to be, the line up, some photos of other concerts they have given and the prices of the tickets. You can click on the photos so they are displayed in a larger format.

Coffee Blog

Oct 2021 - Dec 2021

Technologies: HTML5 • CSS3 • JavaScript

This project is about a coffee blog, where we can see different kind of coffees, a little description, we are also including courses on how to prepare the kind of coffee you are interested in, the price of the course (In some cases for free), information of all the courses that are given, about us where we give a description about what we are doing and the contact form.

Faq Accordion (Design)

Feb 2022 - Feb 2022

Technologies: HTML5 • CSS3 • JavaScript

As it is being said, this is just a design to practice my skills as front end developer, I just got the images and the design of how this had to be done, everything from scratch and now is finished.

Education

No yet: Software

Jan 2018 - Jan 2023

UACM Cuauhtemoc

Mexico City, Mexico

I am a student of the UACM college from Mexico City, I am still studying but I am trying to get a job to gain experience and to learn new things. I have been in many courses about Web Development and trying to get into Front End Development. I have created many projects, some of them are created with databases and some others are just designs. I like learning by myself and creating small projects that could help me show other people the skills I have developed. I also like getting feedback from my projects, this is the way I can get problem solving in a better way. I like to work in teams, help others, receive feedback from my work and be friendly with my coworkers.

Languages

English : TOEFL Certificate

Spanish Native

Chinese (Limited working proficiency)
